Thanks you so much for helping to fill in the blanks. There is some weirdness for Trading Bay in June, July and August 2010 where the DMR has no place to report flow.

I have one more request for AKG315003. I am lacking 2008, Dec 2009, and 2010.

Thanks.

Cindi

Subject: RE: DMRs

We just got a request from AOGCC for produced water data back to 2007. The DMRs that I have (and I am almost positive I got from you) for Trading Bay go back to late 2009 and I have consistent ICIS data for the big three produced water dischargers from August 2011. I cannot believe that we haven't been able to get our act together on this permit even after all these years! Yesterday, I saw a spreadsheet that had produced water numbers from 2007 that was the result of someone going to DEC and copying DMRs (and it wasn't the first time we had sent someone over there) but do you think that DMR data ever made it to ICIS? No!

I think if we could get the big three (AKG315001, 0002 and 0003) from 2008 through July 2011, we could provide a good estimate. Right now AOGCC has a 2007 number of 35 million barrels which looks like the contributions of the 3.

Anything you could do to help would be appreciated (although not likely recorded in ICIS because that is not what we do!). Tim Mayers says he will pop over to get the info if you have any to provide.

Thanks and sorry I lost the CD in my move.

Hi Cindi,

I think I put all the facilities on there, but I don't remember at the moment. Are you looking for any dates/facilities in particular?

Best Regards,

Natalie Wagner

Natalie,

Do you remember the CD that you made for me with the .pdfs of the hard copy DMRs?

Did it have more than Trading Bay on it? I can't find the disk and the only DMR files that I have saved on a hard drive are from Trading Bay for 2010 and 2011.

Cindi
